

# COUNT'S CRAZY MATH CHALLENGE

## How fast can you escape the castle?

The castle is haunted by unsolved equations!  
Find your way out and get rid of the bats and ghouls by solving each problem.

Prepara un cronómetro , papel y lápiz

1. Resuelve las operaciones y descifra el código.
2. Mandame un correo con el tiempo que has tardado y el código que has resuelto.

$$(32-8) \div (9 \div 3) =$$

$$72 \div 6 - 2 \times 4 =$$

$$1 + (9 + 15) \div 3 =$$

$$(13 \times 1) - (63 \div 9) =$$

$$12 \times 3 \div 12 + 5 =$$
