

Name: _____

Decomposing ADDENDS

Solve each problem by decomposing both addends.

1. $23 + 42 =$

Tens: $\underline{\quad} + \underline{\quad} = \underline{\quad}$

Ones: $\underline{\quad} + \underline{\quad} = \underline{\quad}$

$\underline{\quad} + \underline{\quad} = \underline{\quad}$
Tens Ones Sum

2. $13 + 64 =$

Tens: $\underline{\quad} + \underline{\quad} = \underline{\quad}$

Ones: $\underline{\quad} + \underline{\quad} = \underline{\quad}$

$\underline{\quad} + \underline{\quad} = \underline{\quad}$
Tens Ones Sum

3. $16 + 12 =$

Tens: $\underline{\quad} + \underline{\quad} = \underline{\quad}$

Ones: $\underline{\quad} + \underline{\quad} = \underline{\quad}$

$\underline{\quad} + \underline{\quad} = \underline{\quad}$
Tens Ones Sum

4. $42 + 31 =$

Tens: $\underline{\quad} + \underline{\quad} = \underline{\quad}$

Ones: $\underline{\quad} + \underline{\quad} = \underline{\quad}$

$\underline{\quad} + \underline{\quad} = \underline{\quad}$
Tens Ones Sum
