$$\square - \square = \square$$

$$\square - \square = \square$$

$$\square - \square = \square$$

Prof.a. Lidiette Rosas

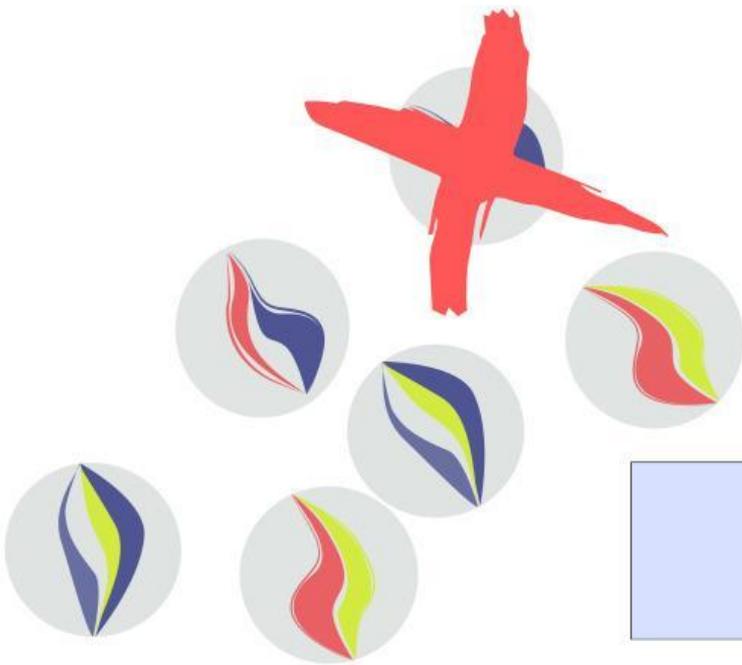

A subtraction problem. On the left, there are ten colorful leaf icons arranged in a circle. A large red 'X' is drawn over the second icon from the top. To the right of the icons is a subtraction equation with three light blue square boxes and a red minus sign and equals sign.

$$\square - \square = \square$$
