

Task 1. Listen to the song and fill in the gaps.

Years and Years

Breathe

What's that supposed to be about _____?

Go free up ya vibe, stop acting crazy

Reminiscing all the good times daily

Try and pull that got me acting shady

What's that supposed to be about _____?

Go _____ up ya vibe, stop acting crazy

You know I give you that good _____ daily

Try and pull that got me acting shady

You say you _____ me, say you love me

But you're never _____, yeah

And you'll be crying, slowly dying

When I decide to _____, yeah

All we do is make up, then _____

Why don't we wake up and see?

When love hurts, it won't work

Yeah maybe we need some time _____

We need to let it breathe

.....

You're only lonely when your homey

Ain't got a ride or no loot, yeah

Then comes the _____

Some other girl is claiming she's _____ with you

Chorus

.....

But you're never there for me

And you'll be crying, slowly dying

When I decide to leave

We need to let it breathe

Task 2. Discuss with your partner:

- What is the guy in the song trying to do with the relationship? Which lines prove it?
- What do their relationships look like right now?
- What does it mean “let it breathe?”
