

## School

- School doesn't prepare students for life. They should be taught practical things, like childcare, and how to cook healthy food.
- Physical education should be optional, and boys and girls should be taught PE separately.
- Primary pupils shouldn't get any homework, and secondary students not more than one hour a night during the week.
- Schools should spend most of the time on maths, science, and IT, and less on arts subjects like history and literature.

## University

- University courses are too long. They should be a maximum of two years.
- University students shouldn't be allowed to have jobs during term-time.
- Students should choose to study a subject they love, not necessarily one that will get them a good job.
- University students should live independently, not with their parents.
