

SCIENCE EXERCISES

Bismillaahirrohmaanirrohiim

1. Electricity can cause danger for human. What are they?
 -
 -
 -
2. Mention the things can be used to set up a simple circuit.
 -
 -
 -
3. A switch is used to
4. A buzzer makes awhen electricity flows through it.
5. Some electronic things use electricity from or

Fill the blanks using the helping words. You may use any of the words more than once or not at all.

Oven	clock	kettle	mobile phone
toaster	refrigerator	blender	kitchen hood
tap	stove	cabinet	ceiling lamp

6. The uses electricity to keep food cold.
7. The uses electricity to boil water.
8. Theuses electricity to show the time.
9. The anduses electricity from cells or batteries.
10. Two things that use electricity from the mains are the and the

Give tick (v) in the correct box to show what the electricity can produce

No	Electronic's Name	It can produce				
		Light	Heat	Sound	Picture	Movement
11	 Toaster					

12	 mixer					
13	 Radio tape					

Match the picture and the name by draw a line.

14		Battery holder
15		Plug
16		Switch
17		Buzzer
18		Batteries
19		Wire
20		Socket
21		lamp
