

# Diagnostic Test: Lifestyle and Health

Name: \_\_\_\_\_ Class: \_\_\_\_\_

## Task 1: Reading

*Drag and drop the headings to the correct paragraphs.*

[ **Fuel for the Brain** ] [ **The Importance of Rest** ] [ **Physical Activity** ] [ **Digital Addiction** ]

1. \_\_\_\_\_ Many teenagers today spend more than 6 hours a day looking at screens. This "sedentary" lifestyle can lead to back pain and tired eyes. Doctors suggest taking a break every 30 minutes to stretch.
2. \_\_\_\_\_ What you eat is just as important as how much you move. Fast food is popular because it's quick, but it lacks the vitamins your brain needs to study well. Replacing a chocolate bar with an apple can improve your concentration.
3. \_\_\_\_\_ It's not just about the body; it's about the mind. Lack of sleep (less than 8 hours) makes students irritable and stressed. A regular sleep routine helps you stay calm during difficult school exams.
