

LEMBAR KERJA PESERTA DIDIK (LKPD)

Mata Pelajaran : Bahasa Inggris

Kelas/Semester : X / Ganjil

Jurusan : Teknik Elektronika Industri

Materi : Recount Text

Alokasi Waktu : 4 x 45 menit

Nama :

Kelas :

A. Tujuan Pembelajaran

Setelah mengikuti pembelajaran ini, kalian diharapkan mampu:

1. Memahami isi teks recount tentang pengalaman praktik elektronika industri.
2. Menganalisis social function, generic structure, dan language features.
3. Mengaitkan nilai ketelitian dan kerja sama dengan dunia kerja industri.

B. Pemantik

Pernahkah kamu merangkai panel atau rangkaian elektronik?

Apa yang kamu rasakan saat rangkaian tersebut berhasil bekerja?

C. Teks Bacaan

My Experience Making a Simple Control Panel

Last week, I had a practice lesson in the industrial electronics workshop. Our teacher asked us to make a simple control panel. We used some basic components such as a push button, a lamp, a relay, and cables.

First, the teacher explained the function of each component and showed us a simple wiring diagram. After that, my group started to work. My job was connecting the cables and placing the relay. At first, the lamp did not turn on because one cable was in the wrong place.

Then, we checked the wiring carefully. We fixed the cable and tested the panel again. Finally, the lamp turned on when we pressed the push button. We felt happy because our panel worked well.

From this experience, I learned that being careful and working together are very important in industrial electronics.

D. Tugas Analisis

1. Social Function:

What is the purpose of the text?

2. Generic Structure:

Generic structure	Paragraph	Explanation
Orientataion		

Events		
Re-orientation:		

3. Language Features:

- Past tense verbs (4):

1.

2.

3.

4.

- Time expression:

- Technical action verbs (2):

E. Refleksi

What value can you learn from the text for your future job?

F. Glossary

Control panel : panel untuk mengontrol rangkaian listrik

Push button : tombol tekan

Relay : saklar listrik otomatis

Wiring diagram : gambar rangkaian kabel

Lamp : lampu indikator

Workshop : bengkel praktik
