  - c. There was a problem with some equipment.

## READING

Read the blog post and write T for True or F for False.

### Steve's Blog

Hi! Keep reading to hear about me and my interests.

I'm really into electronic devices, especially my drawing tablet because I'm crazy about creating colourful pictures. I've sold some of them to local musicians for their demo covers.

I also enjoy writing stories and listening to pop music. Some of my friends are really into classical music. They say it helps them to relax, but I find it pretty boring. I don't play anything, but I really want to learn to play a traditional musical instrument from my country.

I used to play volleyball but I wasn't very good at it. I've been in the school water polo team since the beginning of this year, but I reckon my career will be connected to music in the end. Both my sister and my brother think I've got a lot of talent and they say I should go to art school. I'm not sure... It may come as a surprise that I prefer being a concertgoer - there's nothing better than being part of a crowd of fans at a concert. It makes me feel on top of the world!
