

## Unit 6

### A Complete the text with these words.

drilling elements fair mine migrated pollute reliance soil sufficient harvest

Thasos is one of the most beautiful, albeit less known islands of Greece. Besides the natural beauty of the landscape and the <sup>1</sup> \_\_\_\_\_ weather, the island also has a rich history. There is evidence of people having <sup>2</sup> \_\_\_\_\_ from the mainland ever since prehistoric times. A visitor to the prehistoric settlement will have the opportunity to see how the early inhabitants used to build shelters to protect themselves from the <sup>3</sup> \_\_\_\_\_. Later, the inhabitants took advantage of the rich <sup>4</sup> \_\_\_\_\_ to produce the olives, honey and nuts the island is famous for. They also used to <sup>5</sup> \_\_\_\_\_ the northern side of the mountain for marble, while the naturally forming salt pits in the south produced <sup>6</sup> \_\_\_\_\_ amounts of edible sea salt to make it a booming business. Today it is not only an increasingly popular tourist destination, but it is also considered one of the most important areas for the economic growth of the country as there is already one company <sup>7</sup> \_\_\_\_\_ for oil just off the coast. Wind turbines are also being built to <sup>8</sup> \_\_\_\_\_ the power of the wind, in the hope of producing electric power that does not <sup>9</sup> \_\_\_\_\_ the environment. This should help end the country's <sup>10</sup> \_\_\_\_\_ on fossil fuels that are for the most part imported and draining its already scarce financial resources.

### B Complete the sentences with the correct preposition.

- 1 In Mediterranean countries in summer, the hot midday sun beating \_\_\_\_\_ can make walking tours unbearable.
