Hi Poppy,

I've got a sore throat and a runny nose, so Gran says I [1]*have to / has to* stay at home tomorrow. I'm happy because I [2]*don't have to / doesn't have to* go to school. But we [3]*has to / have to* finish our project. Don't worry, you [4]*doesn't have to / don't have to* come here. We can chat online – is 4 p.m. OK or [5]you *have to / do you have to* go out then? I can't chat before that because Gran says she [6]*has to / have to* use the computer.
