

The Countries of the World

Role-play: You've won a holiday, for you and a friend. Your older sibling will accompany the two of you. You have both seen the video and decided on a place. Your sibling, however, wants to see another place.

The three of you has to decide on one place.

For this activity you will be grouped into 3. Each one will take on a role:

1. The person who won the holiday.
2. The friend.
3. The sibling.

Think about the following to carry out the task:

The person who won the holiday and the friend:

1. Why do you want to visit that place?
2. What have you heard about the place?
3. Which activities you can do in that specific place?
4. Why your sibling should go to the place you and your friend decided on?

Sibling:

1. Why do you want to go somewhere else?
2. What makes the place you decided on more interesting?
3. What activities are there for the 2 friends?
