

# READING COMPREHENSION WORKSHEET

## Topic: Leisure Time and Daily Routines

### Reading Text

**I. Read** the short texts and choose **True (T)** or **False (F)**.

Anna, Leo, Marta, and David are close friends. They live in a small neighborhood near the city center. They are very different, but they enjoy spending time together.

**Anna (19)** is a university student. She studies Literature because she loves books and creative writing. She is calm, responsible, and organized. During the week, she has classes in the morning and studies in the afternoon. In her free time, she reads romantic novels, writes short stories, and practices yoga at home. She usually listens to soft music while she studies. On Saturdays, she helps her mother clean the house and sometimes bakes cookies. She doesn't like noisy places or crowded malls.

**Leo (21)** is a mechanic. He works from Monday to Friday in a car workshop near his house. He is active, friendly, and talkative. In his free time, he plays soccer, rides his bike, and goes to the gym. He usually exercises three times a week. On Sundays, he cooks lunch for his family and watches sports on TV. Sometimes he meets his cousins to play video games. He doesn't enjoy reading books, but he likes magazines about cars.

**Marta (18)** is a high school student. She is creative and patient. She loves painting landscapes and drawing animals. She often spends hours working on her art projects. She also enjoys taking photos of nature in the park. On Friday nights, she watches movies with popcorn and soda. On weekends, she sometimes visits art museums with her best friend. She doesn't like waking up early, so she sleeps late on Saturdays.

**David (20)** is a waiter in a restaurant downtown. He works at night from 6:00 p.m. to 11:00 p.m., so his routine is different. He wakes up late and has breakfast at 11:00 a.m. In his free time, he plays online games, watches technology videos, and practices English on his phone. He is very interested in computers and wants to study programming in the future. On his days off, he cleans his room and listens to podcasts. He isn't very athletic, but he is very curious about new technology.

*They are very different, but they respect each other's interests and meet twice a month to spend time together*

1. Anna prefers quiet activities in her free time. T F
2. Leo works very far from his home. T F
3. Marta spends a lot of time on her art projects. T F
4. David has the same daily routine as Anna. T F
4. Anna sometimes prepares something sweet on Saturdays. T F
5. Leo does physical activities regularly during the week. T F
6. Marta gets up early on Saturdays. T F
7. The four friends meet regularly during the year. T F
