

$$23 \cdot 7 = \boxed{} + \boxed{} = \boxed{}$$

A diagram showing the number 23 with a bracket above it. Below the bracket are two boxes: a green one on the left and an orange one on the right.

$$45 \cdot 4 = \boxed{} + \boxed{} = \boxed{}$$

A diagram showing the number 45 with a bracket above it. Below the bracket are two boxes: a green one on the left and an orange one on the right.

$$18 \cdot 6 = \boxed{} + \boxed{} = \boxed{}$$

A diagram showing the number 18 with a bracket above it. Below the bracket are two boxes: a green one on the left and an orange one on the right.

$$36 \cdot 3 = \boxed{} + \boxed{} = \boxed{}$$

A diagram showing the number 36 with a bracket above it. Below the bracket are two boxes: a green one on the left and an orange one on the right.

$$54 \cdot 2 = \boxed{} + \boxed{} = \boxed{}$$

A diagram showing the number 54 with a bracket above it. Below the bracket are two boxes: a green one on the left and an orange one on the right.

$$64 : 4 = \boxed{} + \boxed{} = \boxed{}$$

A diagram showing the number 64 split into two parts: a green box and an orange box. A blue line connects the top of the green box to the top of the orange box, forming a peak shape.

$$84 : 6 = \boxed{} + \boxed{} = \boxed{}$$

A diagram showing the number 84 split into two parts: a green box and an orange box. A blue line connects the top of the green box to the top of the orange box, forming a peak shape.

$$57 : 3 = \boxed{} + \boxed{} = \boxed{}$$

A diagram showing the number 57 split into two parts: a green box and an orange box. A blue line connects the top of the green box to the top of the orange box, forming a peak shape.

$$65 : 5 = \boxed{} + \boxed{} = \boxed{}$$

A diagram showing the number 65 split into two parts: a green box and an orange box. A blue line connects the top of the green box to the top of the orange box, forming a peak shape.

$$98 : 7 = \boxed{} + \boxed{} = \boxed{}$$

A diagram showing the number 98 split into two parts: a green box and an orange box. A blue line connects the top of the green box to the top of the orange box, forming a peak shape.
