Read the passage carefully and answer the questions that follow.

The Five Great Oceans

The Earth has five oceans, each crucial for maintaining its health. The Pacific Ocean is the largest, containing fish, whales, and sea turtles. The Atlantic Ocean is the second largest, serving as a transportation route. The Indian Ocean is the warmest, containing coral reefs and marine life. The Southern Ocean, a colder region, is home to penguins, seals, and orcas. The Arctic Ocean, the smallest, is ice-covered and crucial for climate balance.

1. Which ocean is the deepest in the world? _____
2. Which ocean is the warmest? _____
3. Which ocean is home to polar bears? _____
4. What is the smallest ocean on Earth? _____
5. Which ocean serves as a major transportation route? _____
