Omamah Bint Al Harith School

Cycle 2

2025-2026

Review – Module 7

1. Identify the corresponding angles:

a = b = c = d =

2. Identify the interior angles:

3. Identify the alternate interior angles:

c = d =

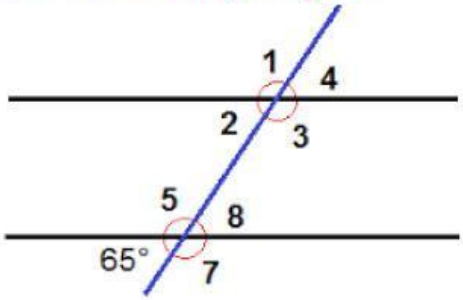

4. Identify the external angles:

5. Identify the alternate exterior angles:

a = b =

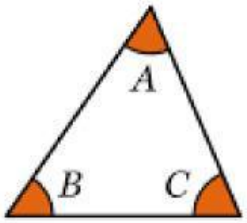

LIVEWORKSHEETS

6. Find the missing angles:

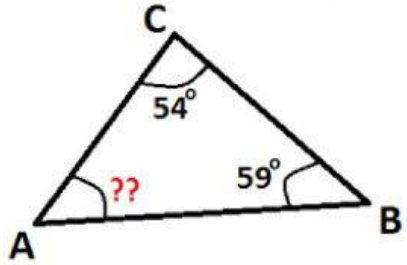

∠8 = ∠7 =

7. Find: A + B + C =

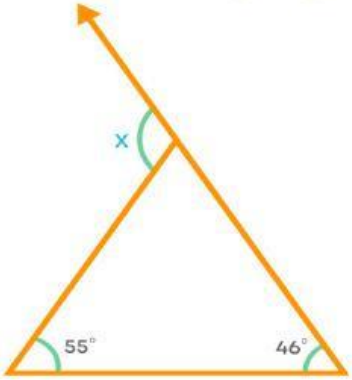

8. Find the missing angle.

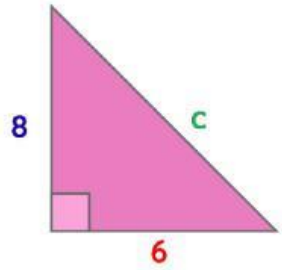

Missing angle =

9. Find the missing angle x =

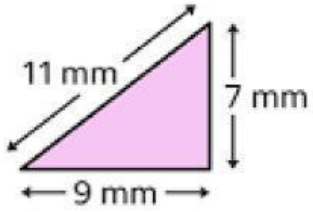

LIVEWORKSHEETS

10. Find the missing side.

c =

11. Check whether the triangle is a Right triangle. (Type: Yes or No)

Answer =
