#### Discovering the New Tablet: Cúc Gạch 7 Review

Cúc Gạch just released their latest tablet, the Cúc Gạch 7. How does it compare to the Cúc Gạch 6? Let's find out!

(26) \_\_\_\_\_

This one on the Cúc Gạch 7 is bigger at 10 inches, and guess what? It's better too! The images are brighter and clearer than the Cúc Gạch 6. Watching movies on this tablet is a delight!

(27) \_\_\_\_\_

We tested both tablets by playing games and watching movies. The Cúc Gạch 7 lasted an impressive 13 hours, while the Cúc Gạch 6 only managed 8 hours.

(28) \_\_\_\_\_

The Cúc Gạch 7 comes with 128 GB of it, double the capacity of the Cúc Gạch 6. It means you can download plenty of music and movies without worrying about running out of space.

(29) \_\_\_\_\_

Does the Cúc Gạch 7 work well? Absolutely! It's powered by a newer and more powerful chip, making it faster than the previous model.

(30) \_\_\_\_\_

The Cúc Gạch 7 is 690 dollars, while the Cúc Gạch 6 is 520 dollars. But wait, there's a special offer this week! The Cúc Gạch 6 is now on sale for just 480 dollars. Don't miss out on this fantastic deal!

#### Where will people live?

*by Tony Jacobs*

Earth is becoming very crowded. In the future, many people believe that the (31) \_\_\_\_\_ will continue to increase. So, the question is, where will all the people live?

I believe that most people will live on (32) \_\_\_\_\_. We can build these close to Earth and travel between them. It will be easy to build new space stations when we need more places for people to live. However, there might not be a lot of room for people to move and exercise. They (33) \_\_\_\_\_ also be very expensive to build, but they will have a great (34) \_\_\_\_\_ of Earth and they will be safe.

I think other people will live on Mars. There will be large cities with lots of people in them. We will have to build these cities under a glass cover. These places will be even easier to travel between. However, they will be dangerous. If we damage something and the

air gets out, it will cause a lot of damage. It will also have less (35) \_\_\_\_\_ than Earth. This can cause problems for people.

We don't know where we will live in the future, but we will find some interesting solutions for our large population.

Hi, Dinky!

I hope you're doing well. I wanted to share some exciting news with you. I'm getting a new computer! I spoke to my friend Sarah, who knows a lot about technology, and she helped me pick one out.

I'm getting the TechMaster 2000. It's perfect for my needs. I mainly use **it** for browsing the internet and doing homework. The best part is that it's really fast and easy to use. However, it doesn't have the biggest screen. I think it's great for watching videos and playing games. Plus, it has plenty of storage, so I can save all my documents and photos. It's also has really long battery life.

I'm so excited about it! I hope we can **catch up** soon, and I can show you my new computer.

Take care,

Long
