A) Router

B) Switch

C) Hub

3) Network security is only important for businesses, not homes.

A) True

B) Fals

**4) Network security helps prevent data loss theft, or damage**.

A) True

B) Fals

Drag and drop:

| WAN | Firewall | MAN | LAN |

_____   _____   _____   _____

التكنولوجيا والذكاء الاصطناعي
Technology and Artificial Intelligence

<u>Matching :</u>

| artificial intelligence |

| algorithm that requires the machine to predict the label or class of an object |

| machine learning |

| ability of a machine to perform tasks that normally require human intelligence |

| classification algorithm |

| study of the algorithms that enable machines to learn from data to make decisions without the help of humans |
