School-Based Assessment T2

Name: ..... Class: 4/.....

Part 2: Read the text and choose the correct answer. Choose A, B or C.

Amazing Machines

Scientists invent many things to help us every day. The television is a popular invention. Televisions help people watch the news and learn new things. Another useful invention is the camera. Cameras help people take beautiful photos of their families.

We also use cars to move around. Cars help us travel to school or work quickly. Long ago, people walked everywhere because there were no cars. Today, electricity is very important because it makes these machines work. Every invention changes the way we live in a special way. Inventions are great because they help us save time and enjoy our lives.
