

Name:

Class: 4/.....

Part 3: Read the text and choose the correct answer. Choose A, B or C.

Great Structures of the World

In the past, people used different materials to build amazing structures. In Egypt, workers used huge stones to build the pyramids. They worked for many years to finish them. In Italy, people built the Colosseum long ago. It is a famous structure made of stone and brick.

Many years later, engineers designed new structures using metal and glass. For example, they made the Louvre Pyramid in France with glass and metal. It has a very modern design. Today, we also have skyscrapers in big cities. Builders used strong metal to make these tall buildings safe. These structures are famous because they show how people built great things in the past and how we build them today.

<p>Example</p>	<p>What did workers use to build the pyramids?</p> <p>A. Wood B. Huge stones C. Plastic</p>	<p>3</p>	<p>In the text, what does the word "built" mean?</p> <p>A. Made or created a structure. B. Bought a new car. C. Went to sleep.</p>
<p>1</p>	<p>Which material was used to build the Louvre Pyramid?</p> <p>A. Only wood B. Glass and metal C. Only paper</p>	<p>4</p>	<p>What is the main idea of this text?</p> <p>A. Egypt is a very hot country. B. People use different materials to build famous structures. C. Glass is more expensive than stone.</p>
<p>2</p>	<p>What do builders use today to make skyscrapers safe?</p> <p>A. Soft bread B. Glass only C. Strong metal</p>	<p>5</p>	<p>Which of the following is NOT mentioned as a structure in the text?</p> <p>A. The pyramids B. Skyscrapers C. The Eiffel Tower</p>
