📝 Model Text – Present Continuous for Future Plans

This weekend, I'm planning several activities because I want to relax and also be productive. I'm not working, so I'm organizing my time to enjoy it with my family and friends. I'm also trying to do something different and fun.

On Saturday morning, I'm meeting my friends at the park to play soccer. After that, we're having lunch together at a new restaurant downtown. In the afternoon, I'm visiting my cousin because it's her birthday. At night, I'm staying home and watching a movie with my parents. We're not going out because we're feeling a little tired.

On Sunday, I'm waking up early and going to the gym. Later in the morning, I'm studying for my English test because I want to be prepared. In the afternoon, I'm helping my mom cook lunch. In the evening, I'm relaxing and preparing everything for the next week. I'm going to bed early because I'm starting work on Monday.

Now write your text on the next page.
