

# ADVERB CLAUSES

by Julian Conde

## I. Write T (true) or F (false).

1. \_\_\_ A clause is a group of words that contains at least one subject and a verb.
2. \_\_\_ In a complex sentence, the main idea is normally in the dependent clause.
3. \_\_\_ If the dependent clause comes first in a complex sentence, we place a comma after it.
4. \_\_\_ You should use "will" or "be going to" in a dependent clause to show future time.
5. \_\_\_ The subordinating conjunction "once" means starting from the moment something happens.
6. \_\_\_ "Until" and "till" have the same meaning, but "till" is more informal.
7. \_\_\_ The word "since" can be used for both reason and time.
8. \_\_\_ "Unless" means that something will happen even if another thing happens.
9. \_\_\_ If a sentence begins with "only if," you must invert the subject and verb of the main clause.
10. \_\_\_ "Whereas" is considered more formal than "while" when making a direct contrast.
