Why AI Matters

What is AI?

Artificial Intelligence (AI) is technology that allows machines to think, learn, and (7) _____. It is becoming part of (8) _____ life and work.

How AI Helps People

- AI helps people save time by doing simple tasks quickly.
- Students use AI tools to check their grammar and spelling.
- Companies get their data (9) _____ by AI to understand customers better.

Benefits of AI

- Improves accuracy and reduces (10) _____
- Supports doctors, teachers, and workers
- Makes services faster and more efficient

AI in the Future

AI is important because it supports humans instead of replacing them. People (11) _____ machines solve repeated tasks, so they can (12) _____ creative and social work. As AI continues to grow, it will help build a smarter, safer, and more productive society.

Question 7: A. reduce errors B. train machines C. improve accuracy D. make decisions

Question 8: A. some days B. any day C. everyday D. each day

Question 9: A. analyzed B. analyzing C. analyze D. to analyze

Question 10: A. advanced function B. virtual reality
C. human mistakes D. facial recognition

Question 11: A. get B. had C. have D. got

Question 12: A. take over B. set up C. look into D. focus on

EXERCISE 3: Read the following advertisement and mark the letter A, B, C, or D to indicate the correct option that best fits each of the numbered blanks.

AI ROBOT EXHIBITION – EXPERIENCE THE FUTURE!

Time & Date: 8 a.m. on May 18th

Location: National Convention Centre

Get ready to explore the world of artificial intelligence at the AI Robot Exhibition, where technology meets creativity.

DONG ANH HIGH SCHOOL

Event Highlights:

- Innovation Zones: Visitors can explore (1) _____ environments that simulate real-world AI applications.
- Hands-on Activities: Attendees will be able to (2) _____ directly with intelligent robots and smart systems.
- Student Showcase: Participants are encouraged to bring a digital (3) _____ presenting their AI-related projects.
- Learning Paths: Some sessions are designed for beginners, while (4) _____ are intended for advanced learners.
- Workshop Areas: All practical sessions will take place (5) _____ specially designed laboratories.
- Program Design: The exhibition offers activities that are (6) _____ for different age groups and skill levels.

Questions

- Question 1:** A. artificial B. digital C. virtual D. visual
Question 2: A. communicate B. control C. interact D. connect
Question 3: A. portfolio B. profile C. record D. document
Question 4: A. another B. the other C. others D. each other
Question 5: A. at B. in C. on D. during
Question 6: A. effective B. flexible C. suitable D. convenient

EXERCISE 4: Read the following advertisement and mark the letter A, B, C, or D to indicate the correct option that best fits each of the numbered blanks.

Dear Students,

The internet offers many opportunities for learning and communication, but it can also create risks if it is used irresponsibly. As members of the online community, we all share the responsibility of making the digital environment safer and more positive.

Before posting or sharing information, take a moment to think carefully (1) _____ its accuracy and possible impact. The rapid spread of (2) _____ on social media can mislead the public and cause unnecessary fear or confusion.

When interacting online, remember to show (3) _____, even during disagreements. Words typed behind a screen can still hurt real people, and posting (4) _____ comments may lead to serious emotional consequences.

It is also important to be aware of how your online behavior affects (5) _____, including classmates and strangers you may never meet in person. If you witness or experience cyberbullying, do not remain silent. Instead, report the situation to a (6) _____ adult, such as a teacher, parent, or school counselor, so that appropriate action can be taken.

Let us work together to build a responsible, respectful, and safe digital community for everyone.

Best regards,

Question 4.

- a. I start my day with a short meditation session followed by a healthy breakfast.
- b. Having a daily routine really keeps me organized
- c. Then, I plan out my tasks and set aside time for each.
- d. This helps me stay productive throughout the day without feeling overwhelmed.
- e. In the end, I feel much more accomplished and balanced.

- A. a-c-b-d-e B. b-a-c-d-e C. b-c-a-e-d D. a-d-c-b-e

Question 5. a. The local park has been renovated and now features a brand-new playground.

- b. However, the increase in visitors has led to some littering issues.
- c. Many families and children enjoy spending time there on weekends.
- d. To address this, the city plans to install more trash bins and hire extra staff for maintenance.
- e. Overall, it's a great improvement, but keeping the park clean will require community effort.

- A. a-c-b-d-e B. a-b-e-c-d C. a-c-d-b-e D. a-d-b-c-e

Question 6. a. This simple habit has made a huge difference in how I feel.

- b. It's a great way to stay focused and calm throughout the day.
- c. Practicing mindfulness has helped me reduce stress.
- d. I try to take at least 10 minutes every day to meditate.
- e. I highly recommend it to anyone looking to improve their mental well-being.

- A. c-d-b-a-e B. b-a-c-d-e C. a-c-b-d-e D. c-e-a-b-d

Question 7. a. Many residents have already signed up and started using the service.

- b. It's a great step towards making the city greener and more sustainable.
- c. The city has launched a new bike-sharing program to reduce traffic congestion.
- d. People can now rent bikes from different stations around the city.
- e. This initiative aims to promote eco-friendly transportation.

Question 8.

- a. Through AI, learning experiences become personalised, with instant feedback and task automation.
- b. Consequently, students engage more deeply, enhancing their understanding.
- c. In summary, AI enriches learning experiences, fostering student success in the digital age.
- d. Artificial intelligence (AI) is transforming university education.
- e. However, they must also learn to collaborate effectively with AI, a vital skill for future careers.
- f. Therefore, universities are integrating AI courses into their curricula, ensuring students are prepared for evolving job markets.

A. a - c - e - f - b - d

B. d - a - b - e - f - c

C. d - b - f - a - c - e

D. f - d - a - b - e - c

Question 9.

Hi Alex,

- a. Many students now use AI-powered tools to practise languages, check homework, and revise lessons more efficiently.
- b. However, the increasing use of AI has raised concerns about data privacy and students' dependence on technology.

DONG ANH HIGH SCHOOL

- c. I'm writing to share my thoughts on how artificial intelligence is affecting students' learning today.
- d. For this reason, schools should clearly guide learners on how to use AI responsibly and ethically.
- e. I believe that with proper guidance, AI can become a valuable support in education in the future.

A. e - a - c - b - d B. c - a - b - d - e C. e - b - c - d - a D. b - d - c - a - e

Question 10:

- a. Share it with us in the comments!
- b. Firstly, engaging in a hobby provides a break from daily routines, allowing us to explore our passions; whether it's painting, gardening, or playing a musical instrument, hobbies add a sense of accomplishment.
- c. Secondly, they offer a chance to connect with like-minded individuals, fostering new friendships.
- d. Hobbies bring joy and fulfilment to our lives.
- e. So what's your favourite hobby?

EXERCISE 6: Read the following passage about the media and mark the letter A, B, C or D on your answer sheet to indicate the option that best fits each of the numbered blanks from

The media plays a crucial role in shaping public opinion and influencing societal norms. (1) _____. From traditional media like newspapers and television to digital platforms, the media has the power to inform, entertain, and persuade.

One of the primary functions of the media is to provide information. (2) _____. By reporting on current events, the media keeps the public informed and helps to hold those in power accountable.

In addition to informing, the media also entertains. (3) _____. Whether it's through movies, music, or video games, the media offers a variety of forms of entertainment that can help people relax, escape, and connect with others.

However, the media also has the potential to be misused. (4) _____. Sensationalism, bias, and misinformation can all distort the truth and mislead the public.

To ensure the media's positive impact on society, it is important to be a critical consumer of media. (5) _____. By evaluating the credibility of sources, identifying biases, and seeking diverse perspectives, individuals can make informed decisions and avoid being manipulated.

Question 1.

- A. However, the media can also be biased and misleading.
- B. The media is a powerful tool for social change.
- C. The media can influence people's attitudes and behaviors.
- D. The media is essential for democracy.

Question 2.

- A. By reporting on current events, the media can shape public opinion.
- B. The media can also be used to spread propaganda.
- C. The media can be a source of entertainment.
- D. The media can be a tool for social justice.

Question 3. A. The media can be used to promote harmful stereotypes.

B. The media can be used to educate the public.

C. The media can be used to entertain and inspire.

D. The media can be used to manipulate public opinion.

Question 4. A. The media is always accurate and unbiased.

B. The media is a powerful tool for good.

C. The media can be used to promote positive social change.

D. The media can be used to spread misinformation and disinformation.

Question 5. A. It is important to rely solely on mainstream media sources.

B. It is important to be critical of the information we consume.

Artificial intelligence (AI) is increasingly shaping the future of work, raising concerns about job displacement while also creating new opportunities. As AI systems become more capable of performing routine and predictable tasks, occupations involving data entry, basic accounting, and customer support are particularly vulnerable, (18) _____. These roles often rely on repetitive processes that can be automated at lower cost and greater speed. However, not all professions face the same risk. Jobs that require creativity, critical thinking, and complex human interaction are more likely to expand, whereas AI serves as a supportive tool rather than a replacement, (19) _____. Fields such as data science, AI ethics, and digital healthcare are expected to grow rapidly as technology continues to evolve.

The impact of AI on employment therefore depends largely on how individuals adapt. If young people focus solely on technical knowledge without developing transferable skills, they may struggle to remain competitive, (20) _____. By contrast, those who combine digital literacy with communication, problem-solving, and adaptability are better positioned to benefit from AI-driven change. Education systems also play a crucial role. Schools and universities must update curricula so that students understand not only how to use AI, but also how to work alongside it (21) _____. Without such preparation, technological progress may deepen existing inequalities.

In the long term, AI should be viewed not simply as a threat, but as a force that reshapes work patterns, (22) _____.

(Adapted from *oecd*.)

Question 18:

- A. and these positions demand advanced human judgement
- B. which results in a higher likelihood of being replaced by automated systems
- C. although they often provide stable income for workers
- D. if organisations choose to invest more in employee training

Question 19:

- A. because machines are fully capable of independent decision-making
- B. while human expertise remains essential in guiding outcomes
- C. although such jobs require little interaction with technology
- D. if emotional intelligence can be completely automated

Question 20:

- A. so that technological innovation becomes less significant
- B. because employers increasingly prefer traditional qualifications
- C. making them more vulnerable to rapid changes in the labour market
- D. although AI adoption remains limited in most industries

Question 21:

- A. whereas students already possess sufficient digital skills
- B. because technological change slows down educational reform
- C. so that graduates can adapt to evolving workplace demands
- D. although access to education continues to improve globally

Question 22:

- A. reinforcing traditional employment structures without adjustment
- B. eliminating the need for human labour across industries
- C. creating opportunities for new roles and skill combinations
- D. reducing the importance of lifelong learning

Artificial Intelligence (AI) has revolutionised the manufacturing industry, offering numerous benefits that have improved efficiency, productivity, and overall profitability.

One significant advantage of AI in manufacturing is the ability to improve accuracy and quality control. (1) _____, as these systems are designed to perform tasks with precision, consistency, and attention to detail. This

DONG ANH HIGH SCHOOL

ensures that product quality remains consistent throughout the production process, decreasing the costs (2) _____. Additionally, AI can detect problems in real-time, enabling manufacturers to address issues promptly and (3) _____.

Another key benefit of AI in manufacturing is (4) _____ to enhance production efficiency. AI algorithms can analyse vast amounts of data quickly and identify patterns or trends (5) _____. This allows manufacturers to optimise their production processes, making them more cost-effective and time-efficient. Furthermore, AI-powered machines and robots can perform tasks faster than humans, maximising productivity. (6) _____, manufacturers can achieve higher production rates and increase their profits.

B. preventing low-quality products from reaching consumers
C. prevent reaching consumers from low-quality products
D. prevent low-quality products from reaching consumers
- Question 4:** A. its capacity B. our capacity C. their capacity D. his capacity
- Question 5:** A. might otherwise go unnoticed by humans
B. that might otherwise go unnoticed by humans
C. that humans might otherwise go unnoticed them
D. humans might otherwise go unnoticed
- Question 5:** A. Despite making use of the power of AI B. By making use of AI of the power
C. By making use of the power of AI D. Due to making use of AI of the power

EXERCISE 9: Read the following passage about artificial intelligence and mark the letter A, B, C, or D on your answer sheet to indicate the best answer to each of the following questions

Artificial intelligence (AI) refers to the simulation of human intelligence in machines that are programmed to think and learn like humans. AI has become an **integral** part of modern technology, impacting various sectors such as healthcare, finance, education, and transportation. By analyzing vast amounts of data, AI systems can identify patterns, make decisions, and even predict future outcomes. These capabilities make AI a powerful tool for solving complex problems and improving efficiency.

One of the most significant applications of AI is in healthcare. AI algorithms can analyze medical data to assist in diagnosing diseases, recommending treatments, and predicting patient outcomes. This can lead to more accurate diagnoses and personalized treatment plans, ultimately improving patient care. Additionally, AI-powered robots can perform surgeries with precision and consistency, reducing the risk of human error.

In the financial sector, AI is used for fraud detection, risk management, and algorithmic trading. By analyzing transaction patterns and identifying **anomalies**, AI systems can detect fraudulent activities in real-time, protecting both consumers and financial institutions. AI also enables more effective risk management by predicting market trends and potential risks, allowing businesses to make informed decisions.

Education is another area **where** AI is making a significant impact. AI-powered educational tools can provide personalized learning experiences, adapting to the needs and learning styles of individual students. This can enhance student engagement and improve learning outcomes. Moreover, AI can automate administrative tasks, allowing educators to focus more on teaching and less on paperwork.

Despite its many benefits, AI also poses several challenges. Ethical concerns arise regarding data privacy, algorithmic bias, and the potential for job displacement. As AI systems become more prevalent, it is crucial to address these issues and ensure that AI is developed and implemented responsibly.

Question 1. Which of the following is NOT mentioned as a sector impacted by AI?

- A. Healthcare B. Finance C. Education D. Agriculture

DONG ANH HIGH SCHOOL

Question 2. The word "integral" in paragraph 1 is closest in meaning to:

- A. unnecessary B. essential C. optional D. separate

Question 3. The word "where" in paragraph 2 refers to:

- A. medical data B. education
C. healthcare D. patient care

Question 4. The word "anomalies" in paragraph 3 could be best replaced by:

- A. errors B. patterns C. transactions D. uncertainties

Question 5. Which of the following best paraphrases the underlined sentence in paragraph 4?

- A. AI in education is limited to administrative tasks.
B. AI tools provide the same learning experience for all students.
C. Personalized learning with AI adapts to individual student needs.
D. AI in education does not affect student engagement.

Question 6. Which of the following is TRUE according to the passage?

- A. AI-powered robots are not used in surgeries.
B. AI can help detect fraudulent activities in real-time.
C. AI has no impact on risk management in finance.
D. AI is not beneficial in the education sector.

Question 7. In which paragraph does the writer mention ethical concerns related to AI?

- A. Paragraph 1 B. Paragraph 2 C. Paragraph 4 D. Paragraph 5

Question 8. In which paragraph does the writer explore the impact of AI on healthcare?

- A. Paragraph 1 B. Paragraph 2 C. Paragraph 3 D. Paragraph 4

EXERCISE 10: Read the following passage about the impact of social media on mental health and mark the letter A, B, C, or D on your answer sheet to indicate the best answer to each of the following questions

[I] In recent years, social media platforms have become a central part of daily life, offering users countless ways to connect, share, and communicate. [II] While these platforms offer many advantages, experts have noted rising concerns about their effects on mental health, particularly among young people (Smith & Anderson, 2018). [III] Studies reveal that excessive social media use can contribute to feelings of anxiety, depression, and loneliness, despite its intention to promote connection and social interaction (Twenge & Campbell, 2019). [IV]

A primary reason for these mental health concerns is the tendency for social media users to compare themselves to others. Platforms like Instagram and Facebook often highlight idealized lifestyles, leading users to feel inadequate about their own lives. Additionally, the constant notifications and messages contribute to a "fear of missing out," or FOMO, which keeps individuals in a cycle of checking their phones, often reducing the quality of sleep and overall well-being.

There is also a growing body of research suggesting a link between social media use and decreased attention spans. When users frequently switch between apps and notifications, their ability to focus for extended periods may diminish (Rosen, 2019). This shift in attention can interfere with productivity, especially in academic and professional settings, where sustained focus is essential.

Addressing these challenges requires a multi-faceted approach. Some mental health professionals suggest limiting screen time and setting boundaries, such as "device-free" hours before bedtime. Others recommend engaging in offline activities, like reading or exercising, to reduce dependence on social media and build healthier habits. According to psychologists, such strategies can enhance mental resilience and allow for more meaningful, balanced relationships (Robinson & Smith, 2020).

- A. users B. researchers C. notifications D. professionals

Question 4. According to paragraph 2, which of the following is NOT an effect of social media on mental health?

- A. improved self-esteem B. increased anxiety
C. fear of missing out D. sleep disruption

Question 5. Which of the following best summarizes paragraph 3?

- A. Social media contributes to concentration issues that affect users' academic achievements.
B. Notifications and app-switching harm the focus needed in professional environments.
C. Frequent notifications on social media can decrease users' attention spans and productivity.
D. Distractions from social media only affect students' performance negatively.

Question 6. The word "enhance" in paragraph 4 is OPPOSITE in meaning to ____.

- A. diminish B. reinforce C. intensify D. appreciate

Question 7. Which of the following is TRUE according to the passage?

- A. Notifications have a minor impact on users' attention spans.
B. Offline activities can help improve mental health by limiting social media use.
C. Social media's primary effect is fostering productivity and interaction.
D. Screen time restrictions are not necessary for mental health.

Question 8. Which of the following best paraphrases the underlined sentence in paragraph 4?

- A. A balanced approach is required to mitigate the harmful impacts of social media.
B. Mental health professionals are solely responsible for regulating social media use.
C. With consistent screen time, individuals can build healthier online habits.
D. Dependence on social media requires a combination of therapeutic techniques.

Question 9. Which of the following can be inferred from the passage?

- A. Social media platforms generally have a positive influence on young users.
B. Social media-related anxiety is often temporary and not very impactful.
C. Balanced social media usage, along with offline activities, can reduce stress.
D. FOMO and lack of attention are uncommon issues among young users.

Question 10. Which of the following best summarizes the passage?

- A. Social media, despite its benefits, presents mental health risks like anxiety and distraction, particularly among young users, and managing screen time can mitigate these effects.
B. The use of social media helps improve relationships and communication but reduces the attention spans of its users.
C. Social media is harmful to all users, causing loneliness and detachment, and must be restricted in all settings.
D. Platforms like Instagram and Facebook serve as effective tools for social bonding, minimizing the effects of anxiety and low self-esteem.
