

English Department
Mid-2nd Semester 2025-2026
Grade 9 / Reading / Homework (12)

Name: _____ Class: _____

Read the text, then answer the following questions:

Jobs in the future will change because of technology and new discoveries. In education, teachers will use artificial intelligence and virtual reality to make learning more interactive. **Teacher's qualifications in the future:** They will need a university degree in education, strong digital skills, creativity, and good communication skills.

In healthcare, doctors and nurses will work with smart machines and AI to **diagnose** and treat patients in a short time.

Doctors and nurses' qualifications in the future:

They will need medical degrees, continuous training, and the ability to use advanced technology. There may also be new careers, such as medical AI specialists who study both medicine and computer science.

Engineers and technology experts will design robots, smart systems, and clean energy projects.

Engineers' qualifications in the future:

These jobs will require strong skills in math, science, programming, and teamwork. Future careers will need digital skills, problem-solving, creativity, and lifelong learning.

1- What is the text **mainly** about?

2- What is the closest meaning to the underlined word "diagnose"?

- 3- According to paragraph (1), why will life in the future be very different from today?
- 4- According to paragraph (1), what will teachers use to make learning more interactive in the future?
- 5- According to paragraph (2), how will doctors diagnose and treat patients more quickly?
- 6- According to paragraph (3), what skills will engineers need for future jobs?
- 7- What will people need to succeed in future jobs?
