X. Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct answer to each of the following questions from 31 to 36.

The concept of a "smart home" is rapidly transitioning from science fiction to everyday reality. A smart home is equipped with devices that connect to the Internet and can be controlled remotely via a smartphone or voice commands. From thermostats that adjust the temperature based on your daily routine, to refrigerators that remind you to buy milk, the "Internet of Things" (IoT) is making life more convenient.

However, this technological advancement is not without its drawbacks. One major concern is privacy. Since smart devices constantly collect data about users' habits, there is a risk that this information could be hacked or misused. Furthermore, the reliance on an internet connection means that if the network goes down, many of these appliances become virtually useless.

Despite these challenges, experts predict that the adoption of smart home technology will continue to **surge**. As manufacturers enhance cybersecurity measures and internet connections become more reliable, the smart home will likely become the standard for future living.

Question 31. What is the passage mainly about?
A. The history of the Internet of Things.
B. The pros and cons of smart home technology.
C. How to protect your privacy online.
D. The best smart devices to buy for your home.

Question 32. The word "**surge**" in the last paragraph is closest in meaning to _____.
A. decrease B. fluctuate C. increase D. stop

Question 33. According to paragraph 2, what happens if the internet connection fails?
A. The devices will automatically connect to a backup network.
B. Hackers will easily steal personal data from the users.
C. Many smart appliances will stop working properly.
D. The home's temperature will drop significantly.

Question 34. The word "**this**" in paragraph 2 refers to _____.
A. the concept of a smart home B. adjusting the temperature
C. technological advancement D. internet connection

Question 35. What can be inferred about the future of smart homes?
A. They will eventually be banned due to privacy risks.
B. They will become more secure and common.

LIVEWORKSHEETS

C. Only wealthy people will be able to afford them.
D. They will stop using the Internet to function entirely.
Question 36. Which of the following is NOT mentioned as a function of smart devices?
A. Adjusting the room temperature. B. Reminding users to buy groceries.
C. Cooking meals automatically. D. Being controlled by voice commands.
XI. Four phrases/sentences have been removed from the text below. For each question, mark the letter A, B, C, or D on your answer sheet to indicate the correct option that best fits each of the numbered blanks from 37 to 40. Taking a "gap year" between high school and university has become a popular trend among teenagers. Instead of going straight to college, many choose to travel or volunteer abroad. (37) _____. By immersing themselves in a new culture, students gain a broader perspective on global issues. (38) _____. For instance, living in a foreign country requires managing a budget, cooking, and navigating public transport independently. (39) _____. Despite these incredible benefits, a gap year is not for everyone. (40) _____. Therefore, it requires careful planning and a mature mindset to truly make the most of this experience.
A. On the other hand, it can be expensive, and some students may struggle to adjust to life far away from home.
B. Furthermore, this experience forces them to develop essential life skills that they wouldn't learn in a classroom.
C. This helps them step out of their comfort zone and learn how to adapt to unfamiliar environments.
D. On top of that, universities and employers highly value candidates who have gained real-world experience.
Question 37. _____ Question 38. _____ Question 39. _____ Question 40. _____
