PART 5 READING (5 questions)

Read the three texts. For each question, choose the correct robot. (5 questions)

Matthew

This robot is perfect for many tasks in the home, unless you live in a house with several floors. It can quietly clean, do the washing-up, or sort clothes and put them in the washing machine. One problem is that it cannot move easily from room to room. It often tries to leave a room through the window, for example.

Olly

This is the perfect robot if you live in a large place on several floors. It takes a few days for the robot to learn all the rooms, but then you can go out and leave it to do all the housework, upstairs and down. It's probably good to go out when it's working, because it makes a lot of noise moving around.

Suzie

If you want your robot to be your friend, this is probably the best one to choose. It learns your likes and dislikes and is good at cooking. It will also be nice to your friends and family. It only has to see someone once and it remembers them. It can make polite conversation, too, but you have to move it on special wheels when you want it in a different place. Cover your ears when you move it.

Questions:

23. Which robot can climb stairs?

A. Matthew

B. Olly

C. Suzie
