Our community

In my town, there are many people with different jobs. Mr. Rodriguez is a dedicated teacher at the public school, but he is not a doctor. Mrs. Gomez is a brave police officer; she is always ready to help. My uncle Carlos is a talented carpenter, and his hands are very strong. He is not a pilot because he is afraid of heights. Maria and Lucia are happy students in sixth grade; they are very intelligent and creative. They are not lazy at all! Their father, Mr. Petro, is a bus driver, but he is not a taxi driver. We are all part of this community, and our roles are important. I am a student too, and I am not a professional worker yet. Life is interesting when people are diverse and kind.
