Unit 5 Vocabulary 1
1 Find and circle 12 animals. Then complete the table.

mantlrbatebeedbeetlerbutterflysfrogedhedgehogoplizardroowlasrabbitusnailspiderle

can jump	can fly	can run	hasn't got legs
		ant	

2 Read and circle.

There are lots of animals in my grandma's garden. A big, green ¹**frog** / **ant** lives in the water and colourful ²**bats** / **butterflies** live on the flowers. They're very pretty. The ³**beetles** / **bees** like the flowers too, but they live in a little house where they make honey. Sometimes ⁴**lizards** / **rabbits** jump into the garden to eat the grass and there are lots of ⁵**spiders** / **snails**. My dad doesn't like them because they've got eight legs and they can run fast, but I think they're cool. My favourite animal is the ⁶**owl** / **hedgehog**. It lives in an old tree, and it's got big eyes. Sometimes we see it fly at night.
