English for children

LECTURA

I am a student. I want to be successful. I always study hard and do my best. Every day I go to school. I learn new things. I begin my day with energy. My teachers teach me many things. They help me grow and become a better person.

Sometimes I feel tired, but I never quit. I keep working and I try again. I read books and I learn new ideas. I think about my future and my dreams. One day I want to build a good life. I want to help my family and give them happiness.

I know education is important. I always try, I never stop, and I become stronger every day.
