

## Find Diameter and Radius

Find the diameter and radius of a circle to the nearest hundredth with the given circumference.

1)  $C = 40$  in.

$$d =$$

$$r =$$

2)  $C = 15.62$  m

$$d =$$

$$r =$$

3)  $C = 256$  ft

$$d =$$

$$r =$$
