

Count 23 cubes.

How many groups of 10 are there? How many are left over?

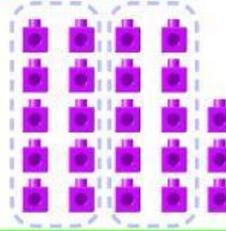

You can make groups of 10.

There are 2 groups of 10.

Count how many ones are left over.

There are 3 left over.

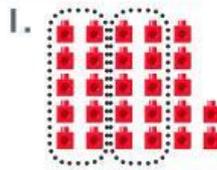

23 is 2 groups of 10 and 3 ones.

So, 23 is 2 groups of 10 and 3 left over.

**Convince Me!** Why does 37 have 3 groups of 10 and not 4 groups of 10?

**Guided Practice** Circle groups of 10. Write the numbers.

2 groups of 10 and 7 ones is 27.

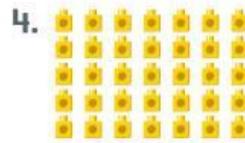

\_\_\_\_\_ groups of 10 and \_\_\_\_\_ ones is \_\_\_\_\_.

## Independent Practice

Circle the groups of 10. Write the numbers.

\_\_\_\_\_ groups of 10 and \_\_\_\_\_ ones  
is \_\_\_\_\_.

\_\_\_\_\_ groups of 10 and \_\_\_\_\_ ones  
is \_\_\_\_\_.

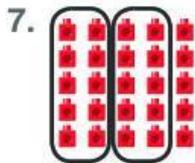

\_\_\_\_\_ group of 10 and \_\_\_\_\_ ones  
is \_\_\_\_\_.

\_\_\_\_\_ groups of 10 and \_\_\_\_\_ ones  
is \_\_\_\_\_.

Write the number of groups of 10 and the number of ones. Then write the total.

\_\_\_\_\_ groups of 10 and \_\_\_\_\_ ones  
is \_\_\_\_\_.

\_\_\_\_\_ groups of 10 and \_\_\_\_\_ ones  
is \_\_\_\_\_.

## Problem Solving

Draw a picture and write the numbers to solve each problem below.

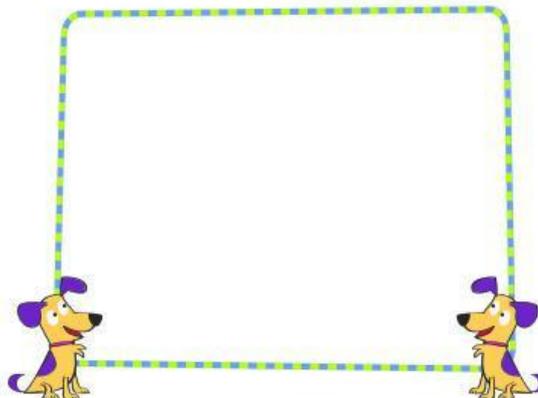

9. **Model** A monkey has 32 bananas.  
10 bananas are in each bunch.

How many bunches are there? \_\_\_\_\_

How many bananas are left over? \_\_\_\_\_

10. **Model** The dogs have 21 bones.  
10 bones are in each bowl.

How many bowls are there? \_\_\_\_\_

How many bones are left over? \_\_\_\_\_

### 11. Higher Order Thinking

Amil writes a number.

His number has 5 groups of 10.

His number has less than 9 ones.

What number could Amil have written?

\_\_\_\_\_

12. **Assessment Practice** A store has 5 bunches of grapes and 3 left over. Each bunch has 10 grapes. How many grapes are there in all? Explain.

\_\_\_\_\_
