Tekst:

Emily had never liked taking risks, but everything changed when she decided to join a school exchange programme. At first, she was nervous about staying with a host family in another country. However, after a few days, she began to feel more comfortable.

During her stay, she had to speak English all the time, which helped her improve quickly. One evening, she got lost while returning home, as she had taken a different route. Although she felt anxious, she asked a stranger for help and managed to get back safely.
