

The Commuter's Dilemma

- **Traffic congestion:** You should use a bicycle to move faster.
- **Rush hour:** You should leave your house earlier to avoid the crowd.
- **Gridlock:** The city should build more alternative routes.
- **Bottleneck:** Drivers should merge carefully into a single lane.
- **Overcrowding:** The government should add more buses to the fleet.
- **Delays:** You should check the transit app for real-time updates.
- **Service disruption:** You should look for an alternative subway line.
- **Long waiting times:** You should bring a book to stay patient.
- **Out of order:** You should call the technician to fix the ticket machine.
- **Road maintenance:** Drivers should follow the temporary detour signs.
- **Construction work:** You should drive slowly near the workers.
- **Potholes:** The local authorities should repair the broken pavement.
- **Lack of parking:** You should use a public parking garage nearby.
- **Poorly lit streets:** The city should install more LED street lights.
- **Traffic accidents:** You should call an ambulance and stay calm.
