4. Long ago, people didn't have cars. They walked everywhere _____.

5. Many years ago, people didn't have cell phones. They used the phone at home or work _____.

V. Read and write T for True or F for False.

The Invention of Washing Machines

A long time ago, all people washed their clothes by hand. They used rocks, sticks, and lots of water. Often people had to carry the water to wash their clothes. It could take all day to wash clothes back then. The first machine for clothes didn't wash the clothes. It helped get the water out of the clothes instead. These were called "wringing machines." It made the job easier, but it was a dangerous machine. People often got hurt by these machines.

About 100 years ago, people started using electric washing machines. The first electric washing machines saved people time. They were not dangerous, and they actually washed clothes! Now many people use washing machines and dryers. Modern washing machines are safe and easy to use.

1. Long ago, it was more difficult to wash clothes. _____
2. Wringing machines were dangerous to use. _____
3. Wringing machines washed the clothes. _____
4. Electric washing machines are more old-fashioned than wringing machines. _____
5. Modern washing machines are dangerous to use. _____

VI. Read the text and do the task below

Stay Healthy!

Sometimes a cold starts with a cough or a sneeze. You're sick again! Colds are caused by germs, which are tiny living things. Not all germs are bad, but sometimes they make us sick. Colds, earaches, and stomachaches can all come from different kinds of germs. Here are the best ways to stop the germs and stay healthy:

- 1) Wash your hands with soap and water often. Washing your hands will keep germs away and help you stay healthy.
- 2) Don't touch your eyes, nose, or mouth unless you have to. The germs from colds move quickly when they touch these parts of your body.
- 3) Don't visit people who are sick. If you touch them or something they touched, you may pick up their cold germs.

If you do get sick, you can help other people by following these rules:

- 1) Stay home while you are sick. Keep your germs to yourself!
- 2) Move away from people when you cough or sneeze.
- 3) Cover your mouth with a tissue when you cough or sneeze. Then throw the tissue away.
- 4) Wash your hands after you cough or sneeze.

Choose the best answer

- 1.You should protect yourself from _____ germs.
- a. cold b. fever
2. Stomachaches, earaches, and _____ come from germs.
- a. broken legs b. colds
