### Primary Sector

#### 1. Read the questions and choose the best answer according to Primary Sector

- Activities in the primary sector depend heavily on natural resources and climate.  
  
A) True  
  
B) False
- The primary sector includes only farming and nothing else.  
  
A) True  
  
B) False
- People working in the primary sector usually produce finished consumer goods ready for direct use.

A) True

B) False

4. In developing countries, a large percentage of the population is usually employed in the primary sector.

A) True

B) False

2. Choose the best option about Economic Sectors & Primary Sector Activities

1. The economy is generally divided into how many main sectors?

A) Two

B) Three (Primary, Secondary, Tertiary)

C) Four (Primary, Secondary, Tertiary, Quaternary)

D) Five

2. Which of the following are primary sources / activities of the Primary Sector?

- A) Farming, fishing, mining, hunting, and forestry
  - B) Banking, teaching, transportation, and insurance
  - C) Manufacturing cars, textiles, and electronics
  - D) Developing software, doing research, and data analysis
3. Which of the following is the best example of a Primary Sector activity?
- A) A carpenter making furniture from wood
  - B) A fisherman catching fish from the sea
  - C) A shopkeeper selling vegetables in the market
  - D) A driver transporting goods from one city to another.

3. Read the case study carefully. Then choose the best correct option for each question below.

Case Study: A Farmer's Life in a Rural Village

Ravi lives in a small village near a river. He owns a 5-acre piece of land. Every year he grows rice and wheat. He uses rainwater and river water for irrigation and

natural soil to grow his crops. Ravi also keeps a few cows for milk and sells the extra milk to the nearby town. Sometimes he catches fish from the river and sells them at the local market. His entire income comes from these activities. He does not process the rice into packaged food or make any finished goods. He simply extracts and sells the raw products that come directly from nature.

1. What type of economic activity is Ravi mainly doing?

A) Manufacturing clothes from cotton B) Extracting raw materials

directly from nature (growing crops, keeping animals, fishing)

C) Providing banking services to villagers

D) Selling mobile phones in a shop

2. Ravi's work belongs to which economic sector?

A) Secondary sector

B) Tertiary sector

C) Primary sector

D) Quaternary sector

3. Which of the following activities mentioned in the case study is NOT part of the primary sector?

A) Growing rice and wheat

B) Keeping cows for milk

C) Catching fish from the river

D) Selling milk and fish at the local market (only the selling part)

4. If Ravi starts making rice flour and selling packaged rice packets, which sector would his new activity belong to?

A) Primary sector

B) Secondary sector (manufacturing/processing)

C) Tertiary sector

D) It would still remain primary sector
