

REDUCE, REUSE & RECYCLE

There are 3 ways to make the Earth a green place place: Reduce, reuse and recycle. When people reduce, it means they are using less of something. This means less waste. Turning off the water when we brush our teeth is a way of reducing. We don't waste water by doing this. Reusing is to use the things we already have again. We can use re-usable shopping bags made of cloth instead of plastic bags when we go to a supermarket. Using both sides of the paper is also a way of reusing.

Finally, we can recycle. Recycling is to create new materials from old ones. Materials like paper, plastic and metal can be recycled. You can recycle the things like newspapers, soda cans, plastic containers and magazines.

A. Choose the correct answer

1. What does 'reduce' mean?

- a) Use more
- b) Use less
- c) Throw away

2. What is an example of reuse?

- a) Plastic bags
- b) Reusable bags
- c) Trash

3. What is recycling?

- a) Burning trash
- b) Making new from old
- c) Buying new

4. Why should we recycle?

- a) To pollute
- b) To care for Earth
- c) To waste

B. True or False

- | | | |
|--------------------------------------|------|-------|
| 1. Reducing means using more things. | True | False |
| 2. Reusing helps reduce waste. | True | False |
| 3. Recycling creates new materials. | True | False |

C. Match the ideas

- | | |
|------------|----------------------|
| 1. Reduce | a. Use again |
| 2. Reuse | b. Use less |
| 3. Recycle | c. Make new from old |
