

Parts of a Spreadsheet

Label the Parts of the Spreadsheet. Drag the Name and place it in the correct box.

Cell Address	Active Cell	Cell	Column	Row
--------------	-------------	------	--------	-----

The image shows a spreadsheet window with a formula bar at the top containing 'C5'. Below the formula bar are column headers A, B, C, and D. To the left of the grid are row numbers 1 through 7. The cell at the intersection of column C and row 5 is highlighted with a green border. Several yellow boxes with arrows point to specific parts of the spreadsheet: one points to the formula bar, one points to the column header 'C', one points to the row header '2', one points to the active cell 'C5', and one points to the row header '5'.
