

- a. What skills can I develop?
- c. Who is the author of the programme?
- e. What can you learn at this school?
- g. When are the lessons?

- b. How can a child become a businessman?
- d. What do students do there?
- f. Children of what age can learn here?

b. How can a child become a businessman?

1. What do you want to be when you grow up? An **astronaut**? A teacher? A **scientist**? A businessman? Do you know that to become a businessman you don't need to be a **grown-up**? Join "Kids Business project" business school for children and learn how to start a business.

2. "Kids Business project" helps children develop their business **skills** like leadership, critical thinking and presentational skills.

3. Our school helps children from seven to seventeen years old decide on their future profession and get the knowledge in Economics and Finance.

4. Here you can learn the history of money, how to make, **calculate** and **save** your money, how to plan your time and how to start a **startup**.

5. The **author** of the program is a real businessman, and the **aim** of the project is to help school kids become successful business people in the future.

6. Our students play business games, visit big companies and meet real businesspeople. All our students start their own business by the end of the learning period and **earn** own money.

7. Our timetable is very convenient - each course lasts for four months from September to December and from January to May, lessons are twice a week on Monday and Wednesday or on Tuesday and Thursday. Join "Kids Business project"!
