G Reading: Inferring meaning

Read the text and write a one- or two-word answer. Use only words from the text.

Highbridge Medical Centre
Dr. Wallis, here are some notes about my patients while I'm away. I'll be back on Tuesday. – Dr. Jones

Patient 1: Tom, 46
He called to say he thinks his problem is food poisoning. He ate in a restaurant two days ago and now he's ill and can't eat. He might still feel sick today, so it may be a good idea for him to go to the hospital for treatment.

Patient 2: Emma, 70
It's possible that having things like bread in her diet will cause her stomach pain. Tell her to go for a blood test next week so we can check if this is the correct problem.

Patient 3: Max, 17
He has a problem with his arm. I don't believe it is broken, but please call the hospital to schedule an X-ray to be sure. Explain to him that his arm will need time to repair.

Patient 4: Louise, 4
Her father brought her in last week with an infection. I gave her antibiotics, but I think she'll need an additional week of this medicine. Please check.

Patient 5: Oscar, 40
He says he's exhausted all the time and has no energy. He has insomnia and cannot sleep at night. Ask him about his lifestyle and give him advice on managing stress.

Patient 6: Dana, 25
She called with a problem with her eyes. I recommend eye drops because she says her symptoms are red eyes and pain. These will help.

1 Dr Jones thinks it is possible Tom will need _____ at the hospital.
2 A _____ for Emma will help the doctor find out which problem she has.
3 Max needs to get _____ so the doctor can check his arm.
4 The doctor thinks Louise may have to take _____ medicine.
5 Because of his _____, Oscar is awake all night and has no energy.
6 Dana has two _____ which the doctor thinks she needs medicine for.
