- learn about local life?
- stay in an unusual building?
- have a local drink?
- have a beautiful experience before breakfast?

## See the world with new eyes

Would you like to have wonderful travel experiences? Here are three ideas to help you plan your next trip!

**1 Watch eagles ride the skies**

Come to Ölgii in the west of Mongolia, for the Golden Eagle festival. The festival started in the year 2000 and happens in the first week of October every year. You stay in the mountains with a local family and experience how they live. It's an interesting area of forest and lakes that very few people visit. The people there use eagles to find food in the mountains. They can teach you how to do it, too ... safely, of course!

**2 Sleep in the Bolivian desert**

The deserts in Salar de Uyuni are white, flat and beautiful. Some people say it feels like the moon! Most people who come here only stay a short time. But with this wonderful experience you can stay overnight in a special hotel. The walls and floors are salt! In the morning, wake up early to see the sun slowly come up over the desert, which was a lake millions of years ago.

**3 Take a bath in the city centre**

Under the ground in Tbilisi, the capital of Georgia, is natural hot water, so in the middle of the old town you can take a bath! Some of the baths are hundreds of years old. When you arrive, a person gives you soap and a towel. The baths are very hot, so stay in for five minutes, then quickly take a cold shower. Then go back in again! Usually people stay for an hour, then have a cup of Georgian tea. It's an experience you can't forget!

## READING
