Welcome to Greece

Experience natural wonders, ancient monuments, and fantastic food, all at your own pace

A. _____

Although the country's official name is Hellenic Republic, most of its citizens refer to it as *Hellas* or *Hellada*. Greek legend claims that the world was created by passing soil through a sieve, with the stones remaining in the sieve being used to build Greece! Looking at a map, it's easy to understand why. Greece has more than 2,000 islands, of which about 170 are inhabited. Santorini, Mykonos, Crete, Rhodes, and Corfu are five of the most popular.

B. _____

Over 80% of Greece's land is mountainous. The country is also extremely rich in wildlife, claiming 6,000 native plants and an abundance of animal species. Natural features like the volcanic rocks of Falakro (on Limnos), the Samaria Gorge (on Crete), and the Blue Caves of Zakynthos (on Zakynthos) are popular destinations.

C. _____

Greeks spend a lot of time outside appreciating the Mediterranean climate. In many places, the tradition of the *volta* is still followed: at sunset people can be seen strolling up and down the main street or, on the islands, along the shore. Greece is renowned for its healthy Mediterranean diet based on vegetables, fruit, olives, olive oil, cheese, bread, and seafood. Meat was traditionally a luxury consumed only on special occasions but is more present in modern diets. There's more to Greek cuisine than moussaka, and food lovers should not be disappointed.

D. _____

Greek society is also famous for its strong family structure, and the vast majority of the country's businesses are still family-run. The extended family, and the obligation placed on family members to support one other, is extremely important. For example, married couples may live with their in-laws until they can find or afford their own housing. In most cases the elderly are looked after by younger relatives; there are hardly any care homes in Greece.

E. _____

Virtually all of the population belongs to the Church of Greece (Greek Orthodox Church), with Easter being the most important religious and family festival. Many people return to their hometowns for the traditional festivities, which include a church service on Saturday evening and lighting the Holy Fire at midnight on Easter morning. Visitors interested in witnessing this aspect of Greek culture should bear in mind that, due to following a different calendar, Easter takes place at a later date than in other European nations.

F. _____

Ancient Olympia grew to be the most celebrated site of Ancient Greece and the birthplace of the Olympic Games. The first games were held in 776 BCE, and the very first race was won by Coroebus of Elis, a cook! In the early days of the Olympics, Greeks across the known world would be reunited every four years, even during times of war. All hostilities would be temporarily forgotten. Olympia remains a powerful landmark that can be visited today.
