Read the following passage and mark the letter A, B, C or D on your answer sheet to indicate the correct answer to each of the following questions from 31 to 36.

BENEFITS OF VIDEO CONFERENCING

Video conferencing is the technology that **allows** you to hold meetings with people who are in different places while seeing them and talking to them in real time. It is different from simple video calling, which is often one-to-one video communication. In the past, video conferencing needed complex and **expensive** equipment. Today, it's easy to join in a video conference on your computer or smart phone with Internet connectivity. Moreover, video conferencing is also an important tool for people who work away from the office, often at home because it helps to save time and money for them.

Video conferencing can help teachers in teaching, too. Video conferencing is a great way of learning and sharing knowledge beyond distance. Courses can take place with the teacher and each different student living in a different location. This will help education spread even to remote mountainous areas.

Question 31: Video conferencing helps people _____.

A. Send message B. send snail mail C. send snail mail D. hold meetings

Question 32: How does video conferencing help people?

A. It helps connect people in different places in real time
B. It helps connect people in different places in future time
C. It helps connect people in same places in real time
D. It helps connect people in same places in future time

Question 33: What can people do with video conferencing?

A. People can see and touch each other

LIVEWORKSHEETS

B. People can see and use telepathy
C. People can see and talk to each other
D. People can talk and touch each other.

Question 34: Which statement below is NOT TRUE?
A. Video calling is often one-to-one communication
B. Video conferencing can happen between many people
C. In the past, video conferencing needed simple equipment
D. Today, video conferencing only needs smartphone with Internet connectivity.
