

The film that I saw **(1)** \_\_\_\_\_ night wasn't very good. It was all **(2)** \_\_\_\_\_ a man **(3)** \_\_\_\_\_ built a time machine so he **(4)** \_\_\_\_\_ travel back in time. It took him ages and ages **(5)** \_\_\_\_\_ build the machine.

**(6)** \_\_\_\_\_ first he didn't succeed, and there were various disasters because he hadn't been **(7)** \_\_\_\_\_ to solve all the scientific problems. As time **(8)** \_\_\_\_\_ on he finally managed to build the machine.

He wanted to travel to the Stone Age, and in **(9)** \_\_\_\_\_ to get there he had to pass through a black hole **(10)** \_\_\_\_\_ space. **(11)** \_\_\_\_\_ his journey there were some good special effects, **(12)** \_\_\_\_\_ they weren't **(13)** \_\_\_\_\_ good as the effects in *Star Pilot 4*.

Anyway, his machine didn't have **(14)** \_\_\_\_\_ power to get all the way back to the Stone Age. He only got to the last century, **(15)** \_\_\_\_\_ was a bit ridiculous after all the trouble he'd **(16)** \_\_\_\_\_ to.
