

A Visit to the Farm- Reading Comprehension

I love visiting the farm, there are so many animals to see! My favorite animals are the horses, so we go see them first, one of the horses is running, and the other is jumping. Next, we go and see the chickens, I think the chickens are boring, because they're always eating, but my little brother really likes them. After the chickens we see the goats, usually they are walking around so you have to be careful, sometimes they bite!

There are ducks in the pond, we go and eat our lunch at the picnic table next to the pond. The ducks are swimming and start to quack when they see

us, we always give them some bread. I like to sit under the tree, and watch the dragonflies flying over the pond, they're so fast! I look into the fields and I see the cows and sheep grazing they are always eating too!

Before we leave I go and see the farmer's dog, she's just had puppies, they're so cute and they love playing. The cat is scared of the puppies and it always runs away, that's fine though because I don't like cats, but I do love visiting the farm!
