

Task 11

Read the following letter and answer the questions.

Zara has lots of problems at home.

Dear Doctor Meera,

I have a problem I'm 15 years old. My mother works from Monday to Friday. My father works from Monday to Saturday. I have two little brothers too. I always go directly home after school. I'm a good student and always do my homework.

I can't go out with my friends on school days because I take care of my brothers. On Saturdays and Sundays, I usually help my mother with the housework. I prepare dinner during the week too. I set the table before dinner and then I wash the dishes. I fight with my brothers because they don't help me. They don't make their beds or clean their rooms.

I can't stand this! I want to leave home.

What should I do?

Zara

1. Where does Zara go after school?
2. Does she always do her homework?
3. What does she do on weekends?
4. Why does she fight with her brothers?
5. Do Zara's brothers help her?

Task 12

Now, imagine you are doctor Meera. write her a letter and give her some concrete ideas on how she solves her problems using "Should" or "Shouldn't".

Dear Zara,

Thank you for your letter. Here are some recommendations first, I think you should:

Sincerely

Dr. Meera.
