Student: Oh, okay. So how long can I keep the books?

Librarian: Well, our general (1)_____ time is 4 weeks. Most students find that that's sufficient.

Student: What if I need them for more time though?

Librarian: Well, you can always renew your (2)_____ date. And there are actually a couple of ways you can do that. You can bring the books back and renew them at the circulation desk. Or you can just (3)_____ them online. You just have to create an (4)_____ on the library's website. And one of the options on that page is "Renew Library Materials."

Student: OK, that (5)_____ easy enough.

All right class, we're going to continue our botany unit with a lecture on the Venus Flytrap. Now, the Venus Flytrap is a carnivorous plant. It's kind of (1)_____ that a plant would use animals for food since this usually happens the other way (2)_____. But the flytrap does. So what does a Venus Flytrap eat? Of course. Flies. But flies aren't the only thing the flytraps eat. They also eat spiders. Basically, the Venus Flytrap will eat any (3)_____ or spider that gets caught in its leaves. The way they work is that they have these trigger "hairs" on the (4)_____ of their leaves. If something touches these hairs in rapid succession (5)_____, the leaves will close on the bug, forming a trap.
