Read the following passage and mark the letter A, B, C, or D to indicate the correct answer for each of the following questions.

ROBOT CHALLENGE

The Robot Challenge is an international championship for home-made robots. Each year, robots go head-to-head in different competitions to find out the champions. Different types of robots show their fantastic abilities to deal with many challenges.

Home robots will show skills to do housework like cleaning the house, cutting the hedges, making the bed, doing the dishes, and doing the laundry. Some of them can do all of these things, but some fail to fulfil all the tasks.

Doctor robots will also join the competition and show their abilities. They can help sick people, look after babies and old people. Some can find health problems quickly and exactly. The group of police robots has to demonstrate skills of shooting, catching thieves, and fighting with fake murderers. Their skills are quite basic, but they can partly help our policemen in real-life situations. These robots are so amazing.

Robots of the same type will try to fulfil all the challenges of the competition. Robots with the highest points will become the champions and be able to be used in society.

47. How often is the Robot Challenge held?
 A. every four years B. each year C. every month D. every decade
48. Which robots have basic skills in keeping security?
 A. home robots B. doctor robots C. police robots D. worker robots
