

READING ACTIVITIES: PETER THE YOUNG WIZARD'S WEEKLY ROUTINE

This is Peter. He is a 12-year-old wizard student at the Golden School of Time Keepers and Wizards. Peter is friendly and very active, but he has a funny problem: strange magical things always happen around him!

On Monday, Peter wakes up at 7 o'clock, brushes his teeth, and gets dressed before breakfast. Sometimes his socks change color by magic! After school, he does his homework and watches TV with his family while his cat tries to sit on his spell books.

On Tuesday, Peter has lunch at school. After school, he plays magical chess with his friends. Sometimes the chess pieces move by themselves and hide under the table! At home, he listens to music and relaxes.

On Wednesday, Peter studies time spells at school and helps his teachers in the clock tower. In the afternoon, he dances with his friends in the great hall, but sometimes the music starts playing backwards!

On Thursday, Peter plays the guitar, but his guitar sometimes plays faster than him! In the evening, he cooks dinner with his family.

On Friday, Peter cleans his room, but his broom cleans everything before he finishes.

On Saturday, Peter and his friends play football near the clock tower. He also takes a shower, but the water sometimes turns green!

On Sunday, Peter listens to music with his cousin.
