LIVEWORKSHEETS

Entertainment has always been important in our lives; it will bring happiness into your life. Some of these activities may even bring you closer to your friends and family members. Therefore, entertainment can be beneficial in many ways.

A. .....

Entertainment can distract you from the stress-causing factors in your life. Your body releases endorphins when you participate in entertaining or fun activities. This chemical is known to relieve stress and pain. Therefore, entertainment can bring a degree of happiness into your life. You can entertain yourself in different ways.

B. .....

You will have more energy to work if you take one or two short breaks, as you can have an active body when the mind is relaxed. You can do something that is enjoyable during these breaks to boost your energy and get back to the task at work.

C. .....

You can learn through creative or enjoyable activities. Education and entertainment intersect frequently. Many scientific studies have confirmed that children learn faster when educational toys and games are used for teaching.

D. .....

You can have more friends when you join activities, such as sports, music, drama, dance, etc. This improves social communication as well as team-building skills. You will also experience less social anxiety, as you have to interact and work with different types of people.

3.2. Decide whether the statement is true (T) or false (F).

1. Entertainment can serve as a distraction in your life.
2. Endorphins are known to relieve stress and pain.
3. You can do enjoyable activities during breaks to boost your energy.
4. Children learn slower when educational games or toys are used for teaching.
5. You can have social anxiety because you must interact and work with different people.
