MATEMATIKA

Kelas 3 Sekolah Dasar

Nama:

Kelompok:

SIMETRI LIPAT

Tentukan berapa banyak simetri lipat pada bangun datar berikut, seperti pada contoh di bawah!

Contoh:

Tidak memiliki simetri lipat

1 simetri lipat

2 simetri lipat

4 simetri lipat

LKPD – MATEMATIKA

Seputar Bangun Datar

Cermati contoh-contoh bangun datar di bawah ini! Lalu jawablah pertanyaan di bawahnya dengan benar!

1

2

3

4

5

6

Pertanyaan:

1. Bangun datar nomor berapa yang memiliki empat sisi?

2. Bangun datar nomor berapa yang panjang sisi-sisinya sama?

3. Bangun datar nomor berapa yang memiliki simetri lipat?

4. Bangun datar nomor berapa yang tidak memiliki simetri lipat?

5. Bangun datar nomor 6 memiliki berapa simetri lipat?
